ORLYN OSWALD

This will be our second production sale. We have dreamed and planned of having an annual sale for many years. Last year's sale was very gratifying. There were three new breeders started with our sale and several added females to their existing herds. Our aim has been to enlarge and improve our herd continuously, enabling us to offer cattle that will improve their new owner's herds.

We have done performance testing and exhibiting in our strongest local shows, with gratifying results. We took three senior calves to our state sale in 1963 and won Grand and Reserve Champions and the Champion Get of Sire. In 1964 we had Grand Champion Female. All four were by the Denver

Champion, W L Consort. We entered four bulls in the Midland Testing Station in 1965, all from different sires. They were all in the top end of the 180 bulls entered, gaining well over three pounds per day while on test. This, I believe, proves the uniformity of the cow herd, together with their bred-in gainability.

A brother of our herd sire sired the 1965 Reserve Champion Steer of the Chicago International. This was over all breeds. We have sold steers that have won championships at the Spokane Junior Steer Show, the Wyoming State Fair, and several smaller shows. The Spokane show is one of the largest in the Northwest.

We feel that conformation, with gainability, is a must. We have always tried to buy herd sires with a good record of performance. To illustrate, in early 1964 we bought a spring calf with a great show record. Later, a group of the most competent judges voted him the 1964 All-American Spring Bull Calf. He was one of eight All-American bulls in the United States and Canada. His service will be one of the features of this sale.

We cordially invite you to be our guests, Saturday, March 12, 1966. Free lunch will be served at 11:30 and the sale will start at 12:30. We urge you to come and bring your neighbor.

CONSORT'S HARVESTOWN 430—He is a full brother to the bull that topped the sale last year. He is a big fellow, too. He has lost the switch to his tail which throws him off balance in looks. I think he will be a popular bull with the size-conscious commercial breeders.

STANDARD GUARANTEE

Endorsed By

AMERICAN SHORTHORN BREEDERS' ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy, or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proven to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made either by buyer or seller and salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
5. All animals are sold to comply with the laws regulating Tuberculosis and Bang's disease of the state.
6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam as well as service dates.
7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All animals sold in this sale will be backed by the above Standard Guarantee.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale or will have Certificates of Bang's Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.
